Preface	xi
Introduction	xiii

Chapter 1

A Treatment Paradigm for Communicative Disorders 1

Treatment Principles and Procedures	2
A Treatment Paradigm for Communicative Disorders	5
Treatment Targets Versus Treatment Procedures	9
Treatment Programs and Variables	11
A Definition of Treatment	12
Some Legal Considerations	13
The Student Clinician in a Clinical Practicum	16
Summary	17
Study Guide	18

Chapter 2

Documenting Treatment Effectiveness 21

What Is Science?	22
Science and Clinical Practice	27
Improvement Versus Effectiveness	29
Documenting Treatment Effectiveness	30
Generality of Treatment Effects	41
Ethnocultural Generality: A Special Case of Client Generality	42
Treatment Effects and Functional Outcome	43

Selection of Treatment Procedures 45
Summary 48
Study Guide 49

Chapter 3

Selection and Definition of Target Behaviors 53

An Overview of Assessment Strategies 54
Selection of Target Behaviors 60
Response Classes as Target Behaviors 61
Target Behaviors Across Disorders 66
The Normative Strategy 67
The Client-Specific Strategy 70
Definition of Target Behaviors 73
Summary 79
Study Guide 80

Chapter 4

Contingencies as Treatment Variables 83

Reinforcement and Reinforcers 85
Positive Reinforcers 86
Types of Positive Reinforcers 87
Negative Reinforcers 98
Schedules of Reinforcement 100
Clinical Use of Reinforcement Schedules 108
Summary 109
Study Guide 110

Chapter 5

Treatment Program I: The Basic Sequence 113

Baselines of Target Behaviors 114
The Basic Treatment Program 122
The Basic Treatment Procedure 125

Copyrighted material by PRO-ED, Inc.

An Example of Initial Training and Probe Sequence 138
 Flexibility in Treatment and Training Sequence 146
 Application of Sequence to Other Disorders 147
 Summary 149
 Study Guide 150

Chapter 6

Stimulus Control in Treatment 153

Physical Stimuli 154
 Instructions 154
 Demonstrations 155
 Modeling and Imitation 156
 Shaping 163
 Prompts 168
 Fading 169
 Summary 171
 Study Guide 172

Chapter 7

Discrimination, Generalization, and Maintenance 175

Discrimination 175
 Generalization 179
 Generalization: Intermediate or Final Clinical Target? 187
 Maintenance Strategies 191
 Summary 202
 Study Guide 203

Chapter 8

Decreasing Undesirable Behaviors 207

More or Less Aversive Methods of Response Reduction 208
 Assessment of Undesirable Behaviors 210
 Direct Methods of Response Reduction 215

Indirect Methods of Response Reduction 230
Negative Side Effects of Aversive Methods 235
Positive Side Effects of Aversive Methods 240
Implementing a Least Aversive Response-Reduction Strategy 241
Summary 247
Study Guide 249

Chapter 9

Working with Families and Other Professionals 253

Counseling: Varied Concepts and Methods 254
Outcome-Oriented Work with Families and Others 256
Peer Training 257
Family Members as Therapists 258
Strategies of Working with Families and Others 261
Working with Other Professionals 269
Summary 273
Study Guide 275

Chapter 10

**Treatment Program II: How To Write,
Modify, and Implement Programs 277**

How To Write Treatment Programs 277
An Outline of a General Treatment Program 278
How To Modify Treatment Programs 286
Sequence of Training 291
Summary 294
Study Guide 295
Concluding Remarks 296

Glossary 299
